SUMMARY

Full-Stack Developer, App Developer & Data Analyst with a strong backend focus, proficient in frontend, and passionate about Machine Learning. Skilled in designing and building robust applications with modern tech. Quick learner, problem solver, and eager to innovate.

SKILLS

Languages: JavaScript, Python, C, C++, SQL, HTML, CSS, PHP

Frameworks: React, Node.js, Next.js, React – Native, Django REST, Bootstrap, Tailwind

Databases: MySQL, MongoDB

Libraries: Pandas, Numpy, Matplotlib, Seaborn

Analytics: Tableau

Tools: VSCode, Figma, Canva, Git, Github Postman, Linux

Others: Robotic Process Automation, EC2 (AWS), Azure

EDUCATION

Manav Rachna International Institute of Research & Studies

Bachelor of Technology in Computer Science CGPA : 8.62

Delhi NCR, India

2022 - 2026

WORK EXPERIENCE

WEB DEVELOPMENT INTERN

PHI PUBLICATION

Feb 2025 - Present

- Maintaining and enhancing company websites with **PHP** and **SQL** for improved performance and reliability.
- Implementing **UI/UX improvements** to boost user experience and streamline navigation.
- Debugging and optimizing existing codebase to ensure smooth functionality across platforms

FULL STACK DEVELOPER INTERN

MRIIF

Jun – Jul 2024

- Designed and implemented multiple projects using the MERN Stack.
- Gained hands-on experience in full-stack development, including front-end and back-end technologies.

COLLEGE FEST WEBSITE

Freelance

- Designed and developed a website for the **Design Ignite** fest using HTML, CSS, JavaScript, and Bootstrap.
- Implemented features such as event schedules, registration forms, and an interactive map of the venue.

PESONALITY & BEHAVIOUR DEVELOPMENT QUIZ

Freelance

- Created an interactive quiz application to assess personality and behavior traits of employees.
- Implemented a robust back-end with Django to handle user authentication, quiz management, and result analysis.

PROJECTS

OliveClear

- Developed a full-stack dermatology and skincare analysis platform leveraging Next.js, Node.js/Express, and MongoDB, enabling users to detect and monitor skin conditions through AI-driven face scanning.
- Engineered a modern, responsive UI/UX with Tailwind CSS and Next.js App Router for a seamless user journey across web and mobile.
- Built secure backend APIs with role-based authentication, real-time updates, and AI-powered insights for personalized skincare recommendations.

Full Stack Book Store Website

- Developed a full-stack BookStore website with React, Node.js, Express, and MongoDB.
- Implemented user authentication, product management, payment integration with Cashfree, and responsive design.

Minor Projects

- Image Compressor, QR Code Generator, Cancer Prediction Model

Analytics

- Created many dashboards in tableau for analytics, worked on real time datasets

ACCOMPLISHMENTS

- **Winner of 6 Hackathons**, competing against an average of **200+ teams** in each.
- Proven track record of innovation, problem-solving, and building impactful solutions under competitive environments.
- Solved 80 Questions on Leet Code.

VOLUNTEERING

- Vice President and Backend Lead in the university full stack developer community
- Hosted many events in college as a Core Member in the Student Council.
